➤ **05-V: Nature and Extent of involvement of Faculty and students in academic affairs/ improvements**

Academic faculty members participate in the BOS, Examination section, STTP, seminars, workshops, syllabus revisions, and industrial training programmes at Mumbai University, as well as other activities aimed at increasing the quality of education. Indirectly, this adds to the academic development of the institute's faculty.

At the institute, the Academic Advisory Body and Academic performance appraisal system is comprised of Faculties and Students Council consists of students who are elected by their peers. Their opinions and feedback are used to help academics better in the future. The institute has a well-established procedure for gathering student comments. Wherever possible, legitimate student suggestions are included into the institute's academic processes in order to enhance students' learning experiences.

At the institute, Students supervised/Mentored by Faculties . The contact between the guardian-faculty and the students gives feedback that contributes to the academic experience's overall quality.

➤ **05-VI : Mechanism/ Norms and Procedure for democratic/ good Governance**

The institute wants to make sure that the campus is healthy and peaceful. The system makes sure that the students, faculty, and staff have all the things they need, but it also makes sure that there is a way to deal with complaints, if there are any

To take care of these, the following are the committees that have been set up for different things:

1. Anti-Ragging Committee
2. The Grievance Redress Committee.
3. Committee for SC/ST
4. The Committee for Internal Complaints
5. The Academic Review and Appraisal

Motivating the teachers and giving them the tools, they need to do their jobs better makes their jobs more enjoyable.

The professional development of faculty is very important, and they are encouraged to take the time to do it.

Incubation and an innovation cell have been set up. There are also technical advantages to taking them from the company.

Suggestions/Complaint boxes are kept in places that are easy to get to on the campus. Complaints and suggestions that are put in the boxes are sorted and sent to the right people.

➤ **05-VII: Student feedback mechanism on Institutional Governance/ faculty performance**

JNIESTRT
Smt. Indira Gandhi College of Engineering
Estd. : 1993-94
(Approved by AICTE New Delhi & Govt. of Maharashtra,
Affiliated to University of Mumbai)

Students are invited to use the suggestion boxes to express their concerns about institutional governance and to provide solutions to such concerns. Two times a year, throughout each semester, students are asked for their opinions on the performance of the faculty members, so that the concerned faculty members can identify their areas of improvement.

➤ **05-VIII : Grievance Redressal mechanism for Faculty, staff and students**

Faculty meetings are held on a regular basis in each department, chaired by the corresponding HOD. The faculty's difficulties, if any, with administrative and academic grievances are discussed in meetings, and the responsible HODs attempt to resolve these issues at the departmental level, but may occasionally submit the situation to the principal, depending on the degree of the problem. Staff grievances, if any, are forwarded to the Registrar and Principal for resolution.

Students' problems are addressed through the required system, which entails a staff member serving as a mentor for approximately 15-20 students. Academic difficulties encountered by students are addressed by subject instructors in cooperation with HODs. Other minor issues concerning students, if any, are sent to the college administration via suggestion boxes, and appropriate procedures for redressing these grievances are taken at the appropriate level.
